The CIT provides support and consultation services for instructional technology tools.

We are made up of the Faculty Resource Center, Audio/Visual Solutions, Emerging Technology and Accessibility, and Multimedia Services.
CENTER FOR INSTRUCTIONAL TECHNOLOGY
The CIT is made up of the Faculty Resource Center (FRC), Audio/Visual Solutions (AVS), Emerging Technology and Accessibility (ETA), and Multimedia Services (MMS).

Faculty Resource Center
To enhance teaching and learning, the FRC provides faculty development and support for instructional technologies such as Blackboard, the learning management system used at The University of Alabama. Faculty can select Blackboard for the courses they will teach through the myBama portal.

Information about Blackboard can be found on the Faculty Resource Center website at frc.ua.edu.

Additional instructional technologies supported by the Faculty Resource Center include:
• Lecture Capture - Tegrity
• Online paper grading, plagiarism prevention, and peer review - Turnitin
• Webinar and other real-time instructional communications - Blackboard Collaborate
• Polling students with clickers - TurningPoint
• Creating video and multimedia assignments.

Contact the FRC at 205.348.3532 or frc@ua.edu for information, assistance, or an individual appointment to get started with instructional technologies.

Emerging Technology and Accessibility
ETA is leading UA’s technology accessibility initiative to meet the needs of all users, including persons with disabilities. ETA also helps evaluate and explore new instructional technology tools and services. Available services include:
• Website and course materials accessibility reviews and reports
• Accessibility instruction for documents, presentations, and websites
• Presentations, tutorials, and workshops on accessibility-related topics
• New technology accessibility check-up
• Speech-to-text assistance
• Emerging technology consultation.

Learn more at http://accessibility.ua.edu. Contact 205.348.0216 for information and assistance.

Multimedia Services
MMS provides custom Web development, photography, videography, and application training services to University departments, groups, and programs including:
• Graphics services
• Photography services
• Video production
• Web application training and development
• Web content development
• Web design and site architecture.

Visit mms.ua.edu for information.

Audio Visual Solutions
AVS provides support, consultation, design, installation, operation, and maintenance of a variety of audio/visual resources, including:
• Multimedia-enabled classrooms and conference rooms
• Digital signage
• Audio and projection systems for events
• Public address system for emergency announcements
• Portable equipment available for short-term rental.

Contact AVS at 205.348.6011 or avsolutions@ua.edu for information, assistance or an individual appointment to get trained on multimedia classrooms.
GET STARTED IN 3 EASY STEPS.

1. Select a theme.  
2. Select a workshop.  
3. Submit a request.

The CIT Office of Multimedia Services offers a simple Web development tool for all UA faculty members with in-person workshops and step-by-step instructions to help you get started.

Every people.ua.edu site is created through a simple three-step process. The drag & drop design interface makes creating your website simple and fast. All types of content, including text, photos, maps, forms, and videos, can be created and edited in our system. Your website is created in real time within your Web browser so there is no software to install or upgrades to manage. We look forward to working with you.

FOR MORE INFORMATION OR TO INITIATE A SITE, VISIT PEOPLE.UA.EDU.
